EUROPEAN INFRASTRUCTURE & RENEWABLES FINANCE 2021

A uniquely diverse event gathering professionals at the vanguard of infrastructure & renewables finance from all corners of Europe.

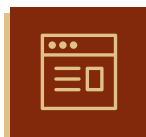

As growth areas continue to shift by sector, geography and regulatory regime, it is of high importance that energy and infrastructure finance professionals maintain an open conversation. Proximo continues to offer this unique pan-regional virtual content and networking platform to continue the progress of this critical infrastructure ecosystem.

Sophisticated networking functions provide the opportunity to one minute speak with the CEO of a Polish offshore wind developer, the next a UK FTTH operator and then a top level infrastructure investor. What's more with interactive sessions and a dedicated speakers' lounge a pass to this event allows full access to all of the forward looking experts scheduled to speak.

EUROPE'S TRANSPORT SECTOR RESILIENCE: HOW WILL RAIL, ROAD, AND AIRPORT ASSETS BOUNCE BACK?

- Which sectors are living up to predicted recovery times and stress-tests?
- How do you distinguish between a temporary contraction in revenues and permanent structural shift to an asset's performance?
- Contrasting government support schemes and their impact on investor sentiment
- NPV concession model and minimum revenue guarantees: could this kickstart European greenfield transport infrastructure?
- Have operational expenditure savings helped asset owners with their capital management? How do OPEX- and CAPEX-savings contrast between airport, road, and rail operators?

Juan Angoitia, Senior Managing Director, Infrastructure, **Ardian**

Manuel Cary, CEO, **TIIC**

Jose Antonio de la Lastra, CFO, **Iridium**
